

# Moab Field Office – Volunteer Vacations 2024

September 29th - October 5th

82 Dogwood Ave, Moab, UT 84532

## Quick Facts:

- Project Rating: Strenuous
- Group Size: 8-12
- Project Type: Day Hiking
- Accommodations: Car Camping
- Temperature:
  - Average High: 79°
  - Average Low: 55°

## Project Description:

- Join this project, camp on top of a scenic plateau and repair a steep trail that was impacted by some heavy rain events last year. Located in the heart of the Colorado Plateau, the Moab Field Office encompasses 1.8 million acres of stunningly scenic canyon country. Carved by the Colorado and Green Rivers, Moab's public lands include a vast variety of arches, natural bridges, mesas, and spires. The Moab Field Office is a mecca for recreation, including off-highway vehicles, mountain biking, climbing, base jumping, hiking, horse-back riding, and river rafting.
- In addition to supporting millions of visitors and hundreds of recreation related jobs in the local communities, Moab also supports a wide array of land uses such as oil and gas production, mining, and livestock grazing.
- Volunteers will hike approximately 4 miles each day, on rough, uneven terrain along the Fisher Towers National Recreation Trail. Volunteers will focus on building steps, drainage structures, reconstructing retaining walls, installing signs and closing non-designated "social" trails.

## Area and Attractions:

- Canyon Rims Recreation Area includes 100,273 acres south of Moab. Two campgrounds and four overlooks are within the Recreation Area, as well as the Trough Springs Hiking trailhead. Major activities include hiking, backpacking, and sightseeing.

## Travel Details:

- Canyonlands Regional Airport in Moab, Utah is the closest major airport. Airport pick up and drop off is not available for volunteers, however carpooling and rideshare can be arranged upon confirmation of the trip.
